

Claims

1. Portable dispenser for dispensing frozen aerated edible
5 product from single dose cartridges containing said frozen
aerated edible product, said dispenser comprising;

• Thermally insulated storing means for storing single dose
cartridges containing said frozen aerated edible product,
10 said thermally insulated storing means being adapted to be
mounted on the back of a person, and

• Dispensing means capable of holding a single dose cartridge
containing said frozen aerated edible product outside the
storing means, said dispensing means comprising discharge
15 means capable of discharging frozen aerated edible product
out of said single dose cartridge.

2. Portable dispenser according to claim 1 in which the
dispensing means are independent from the storing means.

20

3. Portable dispenser according to claim 2 in which the
dispensing means are adapted to be mounted on the front of the
person.

25 4. Portable dispenser according to claim 3 in which the
dispensing means are single-handed actuated.

5. Portable dispenser according to claim 1 in which the thermally
insulated storing means contains cooling means.

30

6. Portable dispenser according to claim 1 in which the thermally
insulated storing means comprises delivery means adapted to

deliver individual single dose cartridges containing frozen aerated edible product.

5 7. Portable dispenser according to claim 6 in which delivery means are situated at a bottom of the storing means.

8. Portable dispenser according to claim 1 in which the single dose cartridges are frusto-conical.
